

Bubble House Rules

- With a booking for a Birthday Party (1x staff member booking) we will require 1 extra able bodied adult to help maintain the Bubble House Rules and operate the inner Bubble House zip. It does not have to be the same adult the whole time, you can take it in turns.
- Our staff member will open and close the outer zip of the entrance and control how many people are coming in at any one time.
- The adult helper will be required to operate the inner zip and be responsible for maintaining the Bubble House Rules. This is to ensure the safety of those inside the Bubble House and also to stop the Bubble house from deflating.
- The entrance works like an air lock and if both zips are open at the same time, the Bubble House will deflate!! If you require an extra staff member to do this in place of a nominated adult, we can provide this for an extra £50 an hour but it is always better if it is an adult that is more familiar with the children.
